Re: EPA Superfund Notifications For:

Dear Sir:

Please find attached completed Notification Forms for the various Reynolds facilities located within Region 3.

Reynolds believes that the interpretative notice and policy statement published in the Federal Register (46 FR 22144) in conjunction with the reporting requirements under Section 103(c) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (hereafter "Superfund" or "Act") is imprecise and does not provide a complete interpretation of the Act's reporting requirements. Recent discussions with Agency representatives also indicates there is still some intra-Agency confusion as to the Agency's exact interpretation of the Act's reporting requirements.

Therefore, submission of these notifications by Reynolds Metals Company is not in any way an admission that any of the above facilities now, or in the past, have ever generated hazardous wastes, or that these plants, now or in the past, were storers, treaters, or disposers of hazardous waste or that Reynolds is the owner or operator of hazardous waste management facilities. Reynolds Metals Company reserves the right to withdraw any of the attached notification forms at any time in the future. Further, due to the imprecise nature of these reporting requirements, Reynolds reserves the right to amend these notifications or to submit additional information at any time in the future.
